A Minister's Cure.

MINISTER AND HIS LITTLE BOY CURED OF OBSTINATE SKIN DISEASES BY THE CUTICURA RENEDIES. PRAISES THEM IN THE PULPIT, HOME, AND IN THE STREET.

Cured by Cuticura.

For about thirteen years I have been troubled with eczema or some other cutuneous diseases which all remedies failed to cure. Hearing of he CUTICURA REMEDIES I resolved to give hem a trial. I followed the directions careally, and it affords me much pleasure to say hat before using two boxes of the CUTICURA. OUR CALTEURA SOAP, and one bottle of CUTICURA RESOLVENT, I was cutirely cured, a addition to my own case, my baby boy, then thout five months old, was suffering with what supposed to be the same disease as mine, to about five months old, was suffering with what I supposed to be the same disease as mine, to such an extent that his head was coated over with a solid scab, from which there was a constant flow of pus which was sickening to look upon, besides two large tumor-like kernels on the back of his head. Thanks to your wonderful Currouna Remnores, his scalp is perfectly well, and the kernels have been scattered so that there is only one little place by his left ear, and that is healing nicely. Instead of a coating of scabs he has a fine coat of hir, much coating of scabs he has a fine coat of in better than that which was destroyed disease. I would that the whole world ferers from skin and blood diseases kn

and humor remedies of modern time everywhere. Price, Cutteuka, 50c 25c; RESOLVENT, \$1. Prepared by th POTTER DRUG AND CHEMICAL CORPORATION

OLD FOLKS' PAINS. Full of comfort for all Pains, It

Some of the Natural Opportunities Offered the Industrious and Enterprising Citi-Who May Decide to "Pitch His Tent" About Terrell, Tex.

TERRELL TEX., Nov. 24.—Terrell is getting o the front in loany things. Quietly and apparently unseen, new concers from other socious of Texas and from other states are setting in our midst. They come without demonstration; no noisy trumpet to herald their arrival; but all the same they come and settle down to business. It is an actual fact that men with their families come in so quietly that only their near neighbors know they are here. This is really better than we had expected it to be, but it is

ight, exactly right.

There are other evidences of prosperity, one of which is the substantial impgoveone of which is the substantial impaye-ments on the farms and elsewhere. There are fewer dug-outs and camps, but larger and bettep dwellings, barns and fences; bet-ter cattle, horses, hogs, chickens and every-thing else. There is a general improvement in all lines which savors of permanence. The sturdy old farmers who left us—many of them—are coming back to Kaufman county, and when they come they generally bring somebody with them. Before they left their new homes they spread abroad the news of Denver, Col., Nov. 24.—Judge Rising at noon to-day rendered his decision in the Graves-Barnaby poisoning case, denying a petition of the defense for a continuance of ninety days. The work of selecting a jury in this now famous case will be begun the program them. that a severe drouth is on and has been on for months. It is a fact that the ground has not been thoroughly wet for several months. Besides this, the chinch bug raided the corn and the boll worm The water has be dried up, and ve

cotton and corn are market in a manner to spirits of the farmer. Cotton is the streets, farmers get money to pay their debts, merchants collect their ac-counts, and a general air of prosperity per-meates the land. Then the schools are prosperous; the best of teachers, instruction thorough and graduates worthy the prosperous, good preachers, who have their prosperous, good preachers, who have their salaries paid; excellent church buildings, and a great many of them. People patriotic, courteous, generous, but not fond of bogus enterprises; love good neighbors, but don't take fits over every Snigglefritz that dashes into the community with three decreases of impudence and brazen all over grees of impudence and brazen all over. We have enough of that sort at home to keep everybody posted in that line.

Farmers, the very element necessary to give honor and stability to an agricultural community, are conting along right in the face of all these apparently discouraging circumstances and gradually filling up the country, though thousands of acres of land remain unoccupied yet. These people are needed to help in the grand march towards success and prosperity. There are enough places for 10,000 farmers who have small means and want homes. No trouble about eing suited, but what the people want are men who know how to work and will work, are economical and honest. Such people, we think help to stiffen the back and beau-tify the face of any country. We want ch, must have such, and are getting such. Let them come on their own accord, see what is to be seen, and then get a piece of land to suit themselves and go to work in finding earnest. The people here believe that from such men spring our statesmen, patriots and leaders in the great measures hat tend to the betterment of the race.

We wait for such at morn, at noon and night. Such people are generally able to take care of themselves in any civilized ountry, and at the same time add to the country's wealth, stability and good name. hat's the class any country needs, and the kind we are getting. Let them come,

early, late and often
